

Making Gloucester Road more accessible

We went to Gloucester Road with Beth from our Action Group and Charlotte.

We spoke to lots of shopkeepers about helping people with disabilities to use shops.

Everybody was friendly and listened to our ideas. Some of the things we talked about are:

- **Ramps to make it easier to get into shops**
- **Signs so we know where to go**
- **More accessible toilets**

We saw lots of good ways the shops are accessible too!

We want to work together to make shops easier for people with disabilities to use.

Small changes can make a big difference!

Beth said “it was really positive, I think it's a really important work to do to get people to think about being more accessible. And I got free chips!”

In the future we will visit again to see if there are changes

Thank you to the shops of Gloucester Road!
